

Strategic Feasibility Report

Executive Summary (Auto-Generated Fallback):

Based on the collected evidence:

clinical: Found 3 trials: NCT03136380: COMPLETED, NCT03256604: COMPLETED, NCT03615040: COMPLETED

patent: IP STATUS FOR Molecule X:

- Granted Patents: 0 (API Response: None)
- Filed Applications: 0 (API Response: None)
- Overall FTO Risk: UNKNOWN (No Data Retrieved)

Executive Summary:

No data found on PatentsView API. Use manual verification.

web: It was officially approved for use in treating myeloma in combination with the steroid dexamethasone in 2006. The first effective new drug to treat MM in ... Nov 18, 1999 ... Thus, the results were evaluated on an intention-to-treat basis. In patients with a response, an increase in serum or urine paraprotein levels ... Sep 11, 2012 ... For example pooled data from MM-009/010 trials evaluating lenalidomide and dexamethasone versus dexamethasone/placebo and a phase II trial ... Nov 18, 1999 ... myeloma, we evaluated the efficacy o ... Eighty-four previously treated patients with refractory myeloma (76 ... May 1, 2012 ... evaluated thalidomide monotherapy in patients with relapsed/refractory multiple myeloma. We conducted an international, randomized, open ... treatment of multiple myeloma: a systematic review and economic evaluation ... thalidomide in combination chemotherapy regimens with an alkylating agent ... Most included studies evaluated thalidomide in combination with melphalan ... treatment of multiple myeloma: a systematic review and economic evaluation. Ongoing trials continue to evaluate novel thalidomide-based regimens to further optimize the use of thalidomide in the management of MM. Keywords: Efficacy ... thalidomide (Thalidomide Celgene®, Celgene, Uxbridge, UK) and bortezomib ... treatment of multiple myeloma: a systematic review and economic evaluation. Jan 1, 2008 ... evaluate the efficacy of thalidomide combined with intensive ... multiple myeloma treated with thalidomide and chemotherapy. Leukemia ...
